

# Join the fight!

fight for your right to silence

## Do you hear voices?

- Do you suddenly have some kind of psychic hearing?
- Can you suddenly hear your “neighbors” conversations and they’re always about you?
- Are voices in your head getting you to hate yourself?
- Do the voices ask you to do small things?
- Do the voices try to shame or gaslight you?
- Do the voices repeat the same sentence if you interrupt them?

## If so, you might be a targeted individual (TI)

You could be experiencing bullying by way of DARPA’s Silent Talk or Voice of God technology.

### Now recruiting!

- radio tech or physicist
- researcher, reporter
- social media expert
- electronics expert
- lawyer
- tech guy
- computer security
- recruitment
- research
- neuroscientist
